Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English. Brand new Book. While one can hold down jobs, cook food, do laundry etc. the other immerses itself in deep thought playing with ideas in a spatial field of interacting ideas. Whereas the regular part of the mind requires sensory stimuli, the other's stimuli of choice are thought experiments. But there was also a realization it was a family trait from the paternal side. He went on to a long career as a mechanical engineer, finishing in San Diego working for the US govt. on nuclear projects. My late brother, Gary, obviously switched back and forth between two states; regular and autistic, worked as an industrial designer for Atari on pinball design then became an artist in Kauai. I could not draw like my father and brother, so worked in a variety of professions while working on this Theory. But all of us possess/ed the same quality of being able to work out design problems within a field of thought. The full story of how I came to think the way I do is in the last section of the book. To make...
